

POWERMIX ECO is a single phase 230V, continues mixing and spraying pump machine with very high capacity. It is suitable for plastering premixed gypsum, lime and cement based plasters, glues, colored plasters, stuccoes and finishing coats. It is perfect option for construction works in residential areas due to it can be operated with 230V residential electricity .

■ APPLICATION AREAS

- Gypsum & Cement Plasters
- Glues and adhesives
- Colored plasters
- Stuccoes
- Floor covering
- Insulating plasters
- Internal wall plastering
- External wall plastering
- Injection & Filling
- Finishing coats
- Self-leveling screed

■ TECHNICAL DATA

- Pumping Capacity: * 5 ~20lt/min
- Pumping Pressure: * max. 20bar
- Max. Grain Size: * max. 3mm
- Pumping Distance: * max.30m
- Pumping Height: * max. 20m
- Power Supply: 230V - 50 Hz
- Mixer Top Motor: 2,4 kW
- Water Pump: 0.37kW - 0.5hp
- Air Compressor: 128 lt/min- 3.5bar
- Driver: YASKAWA
- Vibrator: Optional
- Speed Control: Yes
- Hopper Volume: 70 lt
- (L/W/H): 950/750/1420mm
- Total Weight: 136kg

■ **MACHINE EQUIPMENT**

- Rotor & Stator B 4-2L
- Plaster Hose Ø25 x 10m
- Water Hose Ø19 x 10m
- Air Hose Ø13 x 11m
- Electric Cable 25m
- Mixing Shaft
- Cleaning Chamber & Shaft
- Nozzle Cleaner
- Filters & Gaskets
- Cleaning Balls
- Spray Nozzles
- Machine Spanner
- Mold Release Spray
- Cleaning Spatula
